MONUMENTS AND IMPORTANT SITES

GALAPAGOS COVE BEACH

THE PLAYA DE LA ENSENADA DE LOS GALÁPAGOS IS AN URBAN BEACH WITH GOLDEN SAND LOCATED NEXT TO THE WALLS OF MELILLA LA VIEJA. IT IS APPROXIMATELY 200 METERS LONG, WITH MODERATE WAVES AND CLEAR WATER. SITUATED IN A HISTORIC AND CENTRAL AREA, IT OFFERS SERVICES SUCH AS CLEANING, RESTROOMS, AND LIFEGUARDS (SEASONAL), AND IS EASILY ACCESSIBLE ON FOOT OR BY CAR.

MELILLA LIGHTHOUSE

The Melilla Lighthouse is a historical monument located in Melilla la Vieja (Old Melilla), built in 1918 on the site of a former defensive tower. Its white structure stands approximately 40 meters above sea level, guiding ships approaching the port. Its primary function is to serve as a navigational beacon, preventing accidents. Furthermore, its elevated position overlooking the Mediterranean Sea makes it an important symbol of the city and a prominent tourist attraction.

CONVENTICO CAVES

The Conventico Caves are a network of caves carved into the rock within Old Melilla, built between the 17th and 18th centuries. They served as a refuge for the population during attacks and sieges, and also as a storehouse for food and materials. They consist of several interconnected galleries and chambers, located near the sea and protected by the city walls. Their strategic location allowed for resistance against enemy attacks and facilitated the city's defense. Today, they form part of Melilla's historical heritage and are a major tourist attraction.
